Career Objective

To work as a Full-stack Developer in a dynamic organization where I can apply my technical skills in C#, ASP.NET Core, Angular, React, and SQL to design and develop innovative solutions, while continuously learning and contributing to the company's success.

Profile Summary

Full-stack Developer with 6+ years of experience in building and maintaining scalable, secure, and responsive web applications. Skilled in C#, ASP.NET MVC/Core, Angular, React, SQL Server, and REST API development, with proven expertise in frontend design, backend logic, database management, and API integrations. Adept at working in Agile environments, collaborating with cross-functional teams, and delivering end-to-end solutions that improve efficiency and user experience.

Technical Skills

- Frontend: JavaScript (ES6+), Angular, React, jQuery, HTML5, CSS3, SCSS, Bootstrap 5, Responsive Design, AMP Pages
 - Backend: C#, ASP.NET MVC, ASP.NET Core, Node.js, RESTful APIs, Entity Framework
 - Databases: SQL Server, MySQL
 - Tools & IDEs: Visual Studio, VS Code, Postman, Git, GitHub, Adobe Photoshop, Adobe XD
 - Development Practices: Agile/Scrum, Component-Based Architecture, API Integration, Cross-Platform Development, Code Reviews
-

Professional Experience

Web Designer / Full-stack Developer

Data Bridge Market Research Pvt. Ltd. (Apr 2022 – Present)

Key Contributions:

Corporate Website Development (ASP.NET MVC/Core, SQL Server)

- Developed and maintained responsive, SEO-friendly, and schema-optimized websites.
- Integrated dynamic modules like report listings, blogs, payment workflows, and lead capture forms.
- Built and consumed REST APIs with API Key authentication for secure integrations.
- Improved performance by optimizing frontend code (HTML5, CSS3, JavaScript).

DBMR Cloud Database (Angular 14, Node.js, ASP.NET Core, SQL Server)

- Designed and developed interactive dashboards, tables, and PDF reports using Angular & Apex Charts.
- Implemented real-time chat system with single and group chat functionality.
- Built AI-powered chatbot with Q&A capabilities.
- Created reusable Angular modules & components for scalable architecture.

EFC 2.0 – Employee Facility Center (ASP.NET Core, SQL Server)

- Designed and implemented an internal HR portal for multi-company employee management.
- Created APIs for employee data handling and reporting.
- Managed SQL Server database operations for HR modules.

PixPea Website (React, ASP.NET Core, SQL Server)

- Developed responsive frontend UI using React & Bootstrap.
- Handled backend integration and database connectivity.

Web Designer / Developer

Indus Health Plus Pvt. Ltd. (Jan 2019 – Apr 2022)

- Designed and developed corporate websites & web applications (Indus Health Plus, Indusites, DNAWise, Corporate site, MEDDNAWise Reports).
- Implemented interactive features using JavaScript, jQuery, and Bootstrap.
- Collaborated with the UX team to enhance user experience and branding consistency.
- Integrated APIs and tested new website layouts using A/B testing.
- Mentored and reviewed work for a team of 5 designers.
